The authors of articles accepted for publishing in the OJSA should get the ORCID number ([www.orcid.org](http://www.orcid.org)).

The journal is now publishing 2 times a year.

## PEER REVIEW POLICY

All manuscripts submitted for publishing in the OJSA are expected to be free from language errors and must be written and formatted strictly according to the latest edition of the [APA style](#). Manuscripts that are not entirely written according to APA style and/or do not reflect an expert use of the English language will **not** be considered for publication and will **not** be sent to the journal reviewers for evaluation. It is completely the author's responsibility to comply with the rules. We highly recommend that non-native speakers of English have manuscripts proofread by a copy editor before submission. However, proof of copy editing does *not* guarantee acceptance of a manuscript for publication in the OJSA.

The OJSA operates a double-blind peer reviewing process. The manuscript should not include authors' names, institutional affiliations, contact information. Also, authors' own works need to be blinded in the references (see the APA style). All submitted manuscripts are reviewed by the editors, and only those meeting the aims and scope of the journal will be sent for outside review. Each manuscript is reviewed by at least two reviewers.

The editors are doing their best to reduce the time that elapses between a paper's submission and publication in a regular issue. It is expected that the review and publication processes will be completed in about 2-3 months after submission depending on reviewers' feedback and the editors' final decision. If revisions are requested some changing and corrections then publication time becomes longer. At the end of the review process, accepted papers will be published on the journal's website.
